## **Zoning Hearing Board Review**

### **411 Manchester Ave – Apartment Complex**

George Beer, a principal of the Delaware Valley Development Group is requesting a zoning variance to preserve the existing landscaped courtyard. This variance would lower the provided parking from the required 128 spaces to 117 spaces. Borough Solicitor Middlebrooks pointed out that they should also request an extension of the current special exception to work things out with Nether Providence Township since a portion of the parking area is in Nether Providence. Tina Mason asked that the location of the dumpster pad be shown on the plan. Peter Williamson made a motion to not oppose the requested extension of the special exception and parking variance. Peter Williamson also noted that he feels that removing the courtyard to establish more parking would be deleterious to the property. Robert Yosua seconded the motion. Motion carried unanimously.

## **Land Development & Subdivision**

### **217 N Edgmont Street - Subdivision**

Tim Sullivan, attorney presented a plan to subdivide the existing lot into two lots. One lot would be a buildable lot and the other will continue to house the existing old Victorian home. Peter Williamson asked if the owners had thought about leaving the existing driveway for the buildable lot and creating a new drive for the existing lot on either side of the house. Mr. Sullivan explained that they have and decided that it will detract from the beauty of the existing house. Peter Williamson made a motion to oppose the application due to the opinion of the Borough Solicitor that when the area of the driveway proceeding to the existing house is subtracted from the lot area of the newly created lot, the new lot does not meet the R-1 lot area requirements; seconded by Chris Pavlou. Motion carried unanimously with Bill Payne abstaining.

### **509 N Olive Street – Twin Houses**

Gus Houtman, G.D. Houtman & Son and Ross Hellings, R.C. Hellings presented a final plan to construct a twin dwelling. Engineer Walton explained that the State is requiring that there is a maintenance plan for drainage improvements and that it is recorded in the deeds. Peter Williamson suggested that the proposed trees be two purple leaf plum trees in front and two red maples in the back. Mr. Hellings agreed. Tina Mason made a motion to approve the application as submitted with the above-mentioned conditions. Bill Payne seconded motion. Motion carried unanimously.

## **Sketch Plan Review**

### **W4th & N Olive – Single Family Dwellings**

Tim Sullivan, attorney presented a plan to create two single-family dwellings lots at the above addresses. Option #2 allows for the least amount of variances. Mr. Sullivan
