

Be a Sustainable Business

Retail locations, offices, and restaurants have the unique opportunity to lead the way in sustainability practices. By implementing eco-friendly initiatives such as energy-efficient lighting, composting & recycling programs, and reducing single-use plastics, these businesses can make a significant impact on the environment. Not only does this benefit the planet, but it also resonates with customers who are increasingly conscious of the environmental impact of their purchases. By embracing sustainability, these industries can pave the way for a greener future and inspire others to follow their lead.

Apply

Apply to be designated as a Media Borough Sustainable Storefront.

About the Program

Media Borough and the Media Business Authority invite businesses within the borough to apply for designation as a Sustainable Storefront. Please use the form on the Media Borough website to apply. Businesses who engage in sustainable practices and have completed the form will be eligible for the designation.

The Media Borough Recycling Inspector or another representative of the borough will visit your place of business periodically to verify your status as a Sustainable Storefront.

Why Join?

Restaurants, retail locations and offices who complete the online form and are designated a Sustainable Storefront will be eligible for the following:

- Your business will be listed with a clickable link on the borough website
- Your business will be featured in the Media Borough eNews as a sustainable storefront (eNews reach is over 14,000 per month)
- Your business will be mentioned as a Sustainable Storefront on the Borough's social media sites
- A window cling will be provided for your storefront designating you as a Sustainable Storefront
- Sustainable Storefront table tents will be provided for your business location to be placed on tables or the cash register counter
- Customers will be happy to see you engage in sustainable business practices!

How Can I Join?

You must be engaging in at least 5 sustainability practices from the list on the form. Examples include:

- Reduce waste by recycling, composting and reusing
- Provide sustainable To-Go packaging options
- Use durable goods for onsite dining
- Reduce energy consumption
- Implement sustainable purchasing practices

Complete the form on our website here:
