Business Recycling FAQ's

Q: Why should my business recycle?

A: First, it's good for the environment. Reducing environmental impact is a core value of our residents [and your customers]. Additionally, Media Borough ordinance has required businesses to recycle since 1987: Borough Code 241-37*

Q: Will it be expensive?

A: Conversations with trash haulers indicate that adding recycling should not add much to your bill. If your hauler wants to significantly increase your bill to add recycling don't be shy about negotiating the price, finding another hauler, or partnering with other businesses

Q: What materials am I required to recycle? Do I have to recycle everything listed?

A: Yes. That is the law. It will not take much to include recycling in your operating procedures. Post the list where it can be easily seen. Provide a recycling bin next to each trash bins. Make employees aware of the recycling requirements. Please see the list to the right.

***Business establishments in Media, PA
are required by law to recycle.**
